**TEXT**

**NAVIGATION BAR**

\*This will be present on every page. Buttons here will redirect to searches, recipes, settings, etc.

## INGREDIENT SEARCH

A search page for specifying results based on ingredients the user chooses. Categories are divided by classifications (meats, fish, vegetables, etc.), and will lead to a sub-category when clicked upon.

### SEARCH CRITERIA

\*When the ingredients are selected, they appear in the criteria section at the top. When the user clicks "search" to the right, the results will reflect the ingredients located here.

### FOOD GROUP PHOTOS

## INGREDIENT SEARCH (Sub-category)

---

Once a category is selected, the sub-category will appear (ex: selecting "Meats" will open a page where you can choose ingredients like "Chicken," "Beef," or "Pork." Anything chosen here will add to the criteria at the top of the previous page.

### INGREDIENT PHOTOS

### "SELECTED"

\*When the user touches this, it will activate, indicating the user has chosen this ingredient. Represented by a check-mark in the circle.

### BUTTON RETURNING TO PREVIOUS PAGE

## INGREDIENT INFO

Appears when a sub-category ingredient image is selected. This page provides information about the ingredient, including cooking options and popular food pairings.

**INGREDIENT  
INFORMATION**

## RECIPE OVERVIEW

When a recipe on any page is selected. Provides some basic background of the dish, including ingredients needed and the user who uploaded it.

**“SAVE RECIPE”**

**USER BIO & LINK TO ACCOUNT**

**OVERVIEW**

**INGREDIENT INFO**

\*As the user scrolls to the bottom of the page, they will find a “Recipe” button, directing them to the page instructing how to prepare the dish.

## SEARCH

---

A general search for the entire application. Search results may include recipes, ingredients, and other users on the application.

### SEARCH BAR
